

SAP Consulting – Optimising your SAP investment

Our SAP Resourcing and Optimisation

offering is targeted to work with you to get the best out of your SAP investment and deliver business benefits by assessing and identifying the key value drivers of your business and enabling your SAP environment to support these fully and deliver improved performance. Our services will assist you to achieve the following:

- Close alignment of business objectives and operational execution
- Clear SAP roadmap to benefits realisation
- Improvement of Return on Investment
- Improved management control and visibility

A number of businesses suffer from a disconnection between executive expectation and operational execution, and our primary objective is to ensure that this connection is made. Our offering is designed to quickly identify your key value and cost drivers, and assess areas of improvements and provide advice on how these improvements can be realised. We will deliver to you a SAP Landscape Improvement Roadmap that will clearly articulate improvement opportunities and associated costs and benefits.

Our assessment can help you:

- Identify process weaknesses
- Establish where functionality is not being fully utilised
- Identify redundant SAP applications
- Ensure your SAP environment runs more efficiently and effectively

With their detailed knowledge of SAP functionality our consultants not only have experience with SAP Implementation but offer both knowledge and experience in supporting businesses throughout key phases of the SAP lifecycle. Our consultants can improve your SAP environment as well as provide you with bespoke support dependent on your businesses requirements.

Additionally our SAP Consultants can fully support you through:

- **Implementation** of your SAP software
- **Enhancement** of your SAP landscape
- **Upgrading** of your SAP applications

When temporary skills are required to meet deadlines or to minimise disruption to the business we can provide these skills at short notice, offering you experienced and reliable SAP consultants. With our comprehensive network of SAP knowledgeable resources who meet our vigorous standards, ValueMetrics can provide resources with the relevant SAP knowledge and experience to meet your needs.
